
Vertol 107-II

[View this kit on the website.](#)

Currently serving with military and civil operators throughout the world, the Vertol 107 is a compact twin turbine helicopter with an extremely high performance. The 55 parts of this kit build up into a model of the Royal Swedish Navy version and feature an operating rear ramp and detachable fuel tank/floats. - Taken from the [4th edition catalogue \(1966\)](#)

14th edition catalogue (1977), listed as **Vertol 107-11** from **Vertol 107-II**.

Airfix Series (*first appearance*): 2
Rarity of early version: Scarce
