
Supacat Coyote

[View this kit on the website.](#)

The Coyote tactical support vehicle (TSV light) is based on the 6x6 derivative of the Jackal 2 and will support the go-anywhere high-mobility Jackals across the harsh Afghanistan terrain. The extra two wheels make it a heavier vehicle, approaching 10,500kg, and allow transportation of supplies and equipment over similar terrain (payload for supplies and equipment is 3900kg).

First Issued: 2012

Box art Artists

Artist on Box Type 16: Adam Tooby
