
Boulton Paul Defiant Mk.1

[View this kit on the website.](#)

Often maligned as a failure, the Boulton Paul Defiant proved its effectiveness as a night fighter during the Blitz by shooting down more enemy aircraft than any other type. Built as a "turret fighter" and often mistaken for Hurricanes by the Luftwaffe the Defiant pilots proved themselves in the skies over southern England during the Battle of Britain.

Airfix Series (*first appearance*): 2
First Issued: 2015
