# Boulton Paul Defiant Mk.1

[View this kit on the website.](#)

With its powered dorsal mounted turret, the Boulton Paul Defiant was one of the most interesting fighter aircraft to see service during the Second World War. Originally designed to attack massed formations of enemy bombers, the additional weight of the turret and lack of forward firing defensive armament quickly dictated that the Defiant was better suited to night fighter operations.

**Airfix Series** (*first appearance*): 5

**First Issued:** 2016

## Box art Artists

**Artist on Box Type 16:** Adam Tooby

This kit appeared in these catalogues:

**2016 Edition Ref:** A05128

**2017 Edition Ref:** A05128

**2018 Edition Ref:** A05128

**2020 Edition Ref:** A05128
