
Hawker Typhoon Mk.1b (Car Door)

[View this kit on the website.](#)

Initially intended as a replacement for the highly successful Hawker Hurricane, the early Typhoon fighters were beset with development problems and although highly effective at lower altitudes, it was not considered suitable for the role of interceptor. When adapted for ground attack missions, the Typhoon proved to be unbeatable and took a heavy toll of German armor following the D-Day Landings.

Airfix Series (*first appearance*): 19
First Issued: 2016

Box art Artists

Artist on Box Type 16: Adam Tooby
