
Gloster Meteor F.8 Korean War

[View this kit on the website.](#)

The Gloster Meteor F.8 was a greatly improved version of Britain's first operational jet fighter and arguably the definitive version of this classic aircraft. Seeing extensive service during the Korean War with No.77 Squadron of Royal Australian Air Force, the Meteor would be engaged in combat with the new Soviet produced MiG 15 jet fighter, which proved to be an extremely capable adversary.
