
Messerschmitt Me262B-1a

[View this kit on the website.](#)

As the first operational jet fighter in the world, initial Messerschmitt Me262s combat operations were flown by single seat aircraft, piloted by some of the Luftwaffe's most experienced airmen. A two seat trainer version soon followed, which allowed new pilots to acquaint themselves with this advanced technology, without their conversion from piston power being their first solo jet flight.

Airfix Series (first appearance): 4
