Battle of Britain Memorial Flight

View this kit on the website.

Sharing their home airfield with RAF's latest Typhoon air defence fighter, the classic aircraft of the Battle of Britain Memorial Flight serve the dual purpose of representing the modern Royal Air Force, as well as providing a poignant flying tribute to RAF personnel who served during the Second World War. A popular Airshow act, the hard working aircraft of the BBMF make around 1000 individual appearances each year.

First Issued: 2020
