
Douglas AC-47 Gunship

[View this kit on the website.](#)

With its three 7.62 mm miniguns each able to deliver a devastating 6,000 rounds/minute on a ground target, the AC-47 has proved its worth in Vietnam where night operations have earned it the nickname of 'Spooky'. Developed from the venerable DC-3 Dakota transport, the AC-47 is still operational in South East Asia with the South Vietnam Air Force. This AC-47 kit comes complete with crew, scaled miniguns and a set of authentic markings for a Thailand-based USAF machine. - Taken from the [11th edition catalogue \(1974\)](#)
