# Cessna O2 and MiG-21

[View this kit on the website.](#)

This unusual kit brings together two interesting aircraft. The Cessna O-2 push prop aircraft is used by the U.S.A.F. for reconnaissance over forward positions and the MiG-21 is a front line defence aircraft of many Eastern Bloc countries. - Taken from the [9th edition catalogue \(1971\)](#)

10th edition catalogue (1973), listed as **Cessna O-2 and MiG-21** from **Cessna O2 and MiG-21**.

13th edition catalogue (1976), listed as **Cessna O-2 & MiG-21** from **Cessna O-2 and MiG-21**.

**Airfix Series** (*first appearance*): 3  
**First Issued:** 1971
