
Footbridge

[View this kit on the website.](#)

Completely universal in design, the Airfix Footbridge can be enlarged as required with additional kits. One kit provides for a maximum span of 209mm. (8 1/4 inches). Sufficient overhead clearance has been allowed for the bridge to be mounted either at ground level or on platforms. - Taken from the [1st edition catalogue \(1962\)](#)

17th edition catalogue (1980), recorded as a **Series 3** kit.

Airfix Series (*first appearance*): 2
First Issued: 1958

Box art Artists
