
Drawry Shunter

[View this kit on the website.](#)

Suitable for conversion to a motorised unit, this Airfix Diesel Shunter can also be used as "dummy" motive power on sidings or in industrial areas. The model is constructed from 67 detailed parts and includes such details as internal cab controls, horn, steps, vacuum pipes and sand boxes. Non operating hook and link couplings and Airfix automatic couplings are both included in the kit. - Taken from the [1st edition catalogue \(1962\)](#)

5th edition catalogue (1967), listed as **Drawry Diesel Shunter** from **Drawry Shunter**.

Airfix Series (*first appearance*): 1
First Issued: 1961
