# M6 Anti-Tank Gun

[View this kit on the website.](#)

Used with effect in the later stages of the Second World War against enemy armour and strong points, the M6 mobile 37mm anti-tank gun is here captured in detailed kit form. The Dodge 4 x 4 chassis was used as the gun's platform and the model has all the equipment and weapons of the original. A crew of three and a set of authentic transfers are included in this 116-part kit. - Taken from the [13th edition catalogue \(1976\)](#)

**Airfix Series** (*first appearance*): 7  
**First Issued:** 1976
