
Robins

[View this kit on the website.](#)

Winter can almost be said to be complete when the bright orange breast of the robin is seen in British parks, gardens and woodlands. Well-known also in Europe, this familiar bird can now be modeled in kit form in the Wildlife series. Two Robins are included in a typical setting and with painting the completed model makes an attractive display. - Taken from the [15th edition catalogue \(1978\)](#)
