# Brontosaurus

[View this kit on the website.](#)

Brontosaurus was one of the largest and best known of the dinosaurs, and this new addition to the Prehistoric Monster range illustrates well the incredible length of the creature. The kit has 16 parts which makes it easy to assemble, and complements the other items in the range. The finished model measures 357mm in length. - Taken from the [1981 edition catalogue](#)

**Airfix Series** (*first appearance*): 4  
**Rarity of early version:** Scarce
