
Tornado GR.1

[View this kit on the website.](#)

A multi-role swing-wing aircraft, Tornado is designed to attack airfields and other important installations behind enemy lines and fight its way back. It is capable of flying at extremely low level, skimming under ground based radar, making interception extremely difficult. The Airfix kit has working swing wings, adjustable tail planes and optional armament and decals. - Taken from the [1983 edition catalogue](#)

1983 edition catalogue, this kit appears twice.

1985 edition catalogue, listed as **Tornado GR 1** from **Tornado GR.1**.
