
Hughes AH-64 Apache

[View this kit on the website.](#)

Presently in service with the US Army, the Apache is equipped with the very latest in avionic technology, including both a Night Vision System and the futuristic Helmet and Display Sighting System for deadly accurate targeting at the move of the head. Its main role will be as battlefield support, able to fly by night or day and in any weather conditions. - Taken from the [1992 edition catalogue](#)
